# **FAMILY FIRST OPPOSES WASTING TAXPAYERS' MONEY**

I oppose the Government using taxpayers' money to fund political campaigns.

It doesn't matter which Government – state or federal – or which party – Labor or Liberal.

The fact is people don't pay taxes to have their money wasted like this.

I support the Democrats' attempt to force the Government to get Senate approval for spending taxpayers' money on advertising campaigns.

If this is all the Government's got to spend our money on, they should hand it back to families and small businesses who actually need it and know what to do with it.
